

The MONEY Charity

The Money Statistics – November 2014 summary

Every day in the UK

The population of the UK grew by an estimated **1,223** people a day between 2003 and 2013.

It costs an average of **£29.65** per day to raise a child from birth to the age of 21.

On average, a UK household spends **£3.00** a day on water, electricity and gas.

270 people a day are declared insolvent or bankrupt. This is equivalent to one person **every 5 minutes 20 seconds**.

32.5 million plastic card purchase transactions were made every day in August 2014, with a total value of **£1.525 billion**.

8.79m cash machine transactions were made every day in September with a value of **£364m**.

1,893 Consumer County Court Judgements (CCJs) are issued every day, with an average value of **£2,278**.

Citizens Advice Bureaux in England and Wales dealt with **6,405** new debt problems every *working day* during the year ending June 2014.

71 properties are repossessed every day, or one every **20 min 15 seconds**.

The number of mortgages with arrears of over 2.5% of the remaining balance fell by **64** a day.

The number of people unemployed for over 12 months fell by **532** per day.

1,033 people a day reported they had become redundant between June and August.

Government borrowed **£394 million** a day during September 2014 (**£4,564** per second).

Net lending to individuals in the UK increased by **£90m** a day.

Borrowers would repay **£164m** a day in interest over a year, based on September 2014 trends.

118 mortgage possession claims and **87** mortgage possession orders are made every day.

423 landlord possession claims and **353** landlord possession orders are made every day.

Personal debt in the UK

People in the UK owed **£1.459 trillion** at the end of September 2014.

- This is up from £1.430 trillion at the end of September 2013 – an extra **£572** per UK adult.

The average total debt per household – including mortgages – was **£55,223** in September. The revised figure for August was **£55,083**.

Per adult in the UK that's an average debt of **£28,884** in September – around **116%** of average earnings. This is up from a revised **£28,810** in August.

Based on September 2014 trends, the UK's total interest repayments on personal debt over a 12 month period would have been **£59.8 billion**.

- That's an average of **£164 million** per day.
- This means that households in the UK would have paid an average of **£2,265** in annual interest repayments. Per person that's **£1,185** – **4.74%** of average earnings.

Outstanding consumer credit lending was **£165.1 billion** at the end of September 2014.

- This is up from £158.6 billion at the end of September 2013, and is an increase of **£128.79** for every adult in the UK.

Per household, that's an average consumer credit debt of **£6,251** in September, up from a revised **£6,163** in August.

It also means the average consumer credit borrowing was **£3,270** per UK adult in September. This is up from a revised **£3,223** in August.

Total credit card debt in September 2014 was **£58.5bn**. Per household this is **£2,214** – for a credit card bearing the average interest, it would cost:

- **£56** a month to clear the debt in five years.
- **£38** a month to clear it in ten years.

UK Banks and Building Societies **wrote off £3.45 billion** of loans to individuals over the four quarters to Q2 2014.

Mortgages, rent, and housing

Outstanding mortgage lending stood at **£1.294 trillion** at the end of September.

- This is up from £1.271 trillion at the end of September 2013.

That means that the estimated average outstanding mortgage for the 11.1m households with mortgage debt was **£116,035** in September.

The average Mortgage Interest rate was 3.2% at the end of September. Based on this, households with mortgages would pay an average of **£3,713** in mortgage interest over the year.

For new loans, the average Mortgage Interest rate was 3.22%. Using the latest figures from the Council of Mortgage Lenders, this means new mortgages would attract an average of **£4,902** in interest over the year.

According to the Council of Mortgage Lenders (CML), the typical first-time buyer deposit in July was 17% (**around £31,184**) – **125% of an average salary**.

- The average first-time buyer borrowed 3.42 times their income and the average first-time buyer loan was an estimated £152,249.

The average monthly rent for a two-bedroom house in England was £606 – in London this was £1,173 (**94% higher**).

Savings and pensions

In Q2 2014, households saved an average of **6.7%** of their pre-tax income.

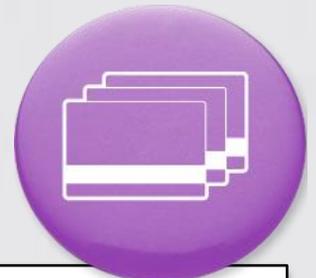

The average interest rate for an instant access savings account – not including bonus interest payments – was 0.42% in September. For a cash ISA, this was 0.82%.

It would take **19 years** for someone on the average salary, saving the average amount per household every year in an average instant access savings account, to afford the average first-time buyer deposit. If they saved into a cash ISA at the same rate it would take **18 years**.

The Pensions Regulator estimates that at least **4.748 million** employees had joined a pension scheme under auto-enrolment by the end of September 2014.

According to the latest Family Resources Survey, **26%** of all adults actively participated in a pension in 2012/13. This figure was **48%** for employees, and **18%** for the self-employed.

Spending and loans

In Q2 2014, households in the UK spent **£79.31m** a day on water, electricity and gas – or **£3.00** per household per day.

The average interest rate on credit card lending was **18.06%** in September. This is **17.56%** above the Bank of England Base Rate (0.5%).

British Bankers Association figures show that 58.1% of credit card balances were bearing interest in August 2014.
