The MONEY Charity

Welcome to the April 2014 edition of The Money Charity's (formerly Credit Action) monthly Debt Statistics. The Debt Statistics provide a detailed overview of the level of debt in the UK as well as a range of other figures related to money, finance and the economy. We hope you find them useful.

Our headline personal debt figures are on **pages 3 and 4**. The Striking Numbers box in the right also summarises some of the most significant statistics from this month's release. The Striking Numbers are colour-coded, to help you navigate to the appropriate section using the key below.

Throughout this document, statistics that are written in **colour** have been calculated by The Money Charity. All the other statistics come from external sources and are written in **black**.

- This is up from £1.424 trillion at the end of February 2013.

Outstanding secured (mortgage) lending stood at **£1.280 trillion** at the end of February 2014.

- This is up from £1.268 trillion at the end of February 2013.

Outstanding unsecured (consumer credit) lending stood at **£159.0 billion** at the end of February 2014.

- This is up from £156.5 billion at the end of February 2013.

AVERAGE UK PERSONAL DEBT

Average household debt in the UK (excluding mortgages) was **£6,018** in February.

- This is up from a revised **£6,015** in January.

Average household debt in the UK (including mortgages) was **£54,472** in February.

- This is up from a revised **£54,408** in January.

The average amount owed per UK adult (including mortgages) was **£28,673** in February. This is up from a revised **£28,639** in January and was around **115%** of average earnings.

Average consumer borrowing (including credit cards, motor and retail finance deals, overdrafts and unsecured loans) per UK adult was **£3,168** in February. This is up from a revised **£3,166** in January.

The estimated average outstanding mortgage for the 11.2m households that carry mortgage debt stood at **£114,416** in February.

Based on February 2014 trends, the UK's total interest repayments on personal debt over a 12 month period would have been **£59.2 billion**.

- This is equivalent to **£162 million** per day.
- This means that UK households would have paid an average of **£2,242** in annual interest repayments.

1. UK PERSONAL DEBT

The Office for Budget Responsibility (OBR) predicted in March 2014 that total household debt will reach **£2.251 trillion** in Q1 2019. This would mean that average household debt would reach **£85,220** (assuming that the number of households in the UK remained the same between now and Q1 2019).

NET LENDING AND WRITE-OFFS

Total net lending to individuals by UK Banks and Building Societies **rose by £2.3 billion** in February 2014.

- Net secured lending rose by £1.7 billion in the month; net consumer credit lending rose by £0.6 billion.

UK Banks and Building Societies **wrote-off £3.61 billion** of loans to individuals over the four quarters to Q4 2013.

3. NATIONAL STATISTICS

ECONOMY

The UK economy **grew by 0.7%** in the fourth quarter of 2013, according to latest estimates from the Office of National Statistics.

The Bank of England Base Rate is currently set at **0.5%** (since being established in 1694, the Rate has never been lower). It was reduced to this level on 5th March 2009, and has been held there for 60 months.

There were **5.4 million** working age benefit claimants at August 2013. This is a decrease of 285,000 in the year.

UNEMPLOYMENT

The number of unemployed people in the three months between November 2013 to January 2014 was **2.33 million** (7.2%). This is down by 63,000 from the previous three months, and down by 191,000 from a year earlier.

- **117,000** people (**1,282 a day**) reported they had become redundant over the three months. This is down by 2,000 from the previous three months, and down by 15,000 from a year earlier.
- **828,000** people had been unemployed for over 12 months between November to January, down by 38,000 from the previous three months, and down by 59,000 (**162 a day**) from a year earlier.
- The number of economically inactive people aged between 16 and 64 fell by 19,000 over the three months, and fell by 57,000 over the year, to reach **8.90 million** in the three months to January 2014.

Public sector employment fell by **159,000** in the fourth quarter of 2013 to reach **5.507 million** overall.

The Office for Budget Responsibility's March 2014 forecast for General Government Employment estimates a total reduction of around **1.0 million** staff between the start of 2011 and the start of 2019 - 100,000 less than estimated in its December 2013 forecast. However, they estimate that this will be more than offset by a rise of **3.3 million** in total market sector employment over the period, meaning overall employment will reach **31.4 million** in 2018/19.

3. NATIONAL STATISTICS

PUBLIC SECTOR NET DEBT

In February 2014, public sector net debt (PSND) *excluding* financial interventions was **£1246.8bn**, equivalent to 74.7% of GDP. This compares to £1160.7bn (72.5% of GDP) at the end of February 2013.

Meanwhile, public sector net debt *including* financial interventions was **£2198.1bn**, equivalent to 131.7% of GDP. This compares to £2189.4bn (136.7% of GDP) as at the end of February 2013.

- The Office of National Statistics includes complete data from the Royal Bank of Scotland and Lloyds Banking Group, which were part-nationalised in 2008, in its calculations for PSND including financial interventions.

According to the March 2014 Budget, public sector net debt is forecast to peak at **78.7% of GDP** in 2015-16, before falling to **74.2% of GDP** in 2018-19.

CORPORATE INSOLVENCIES

Figures from the Insolvency Service show that there were **3,552** compulsory liquidations and creditors' voluntary liquidations in England and Wales in the fourth quarter of 2013 (on a seasonally adjusted basis).

- This was an decrease of 7.4% on the previous quarter, and down 7.1% on the same period a year ago.

In the twelve months ending Q4 2013, approximately **1 in 166** active companies (0.6% of all active registered companies) went into liquidation.

- This is down from 1 in 159 in the previous quarter.

Additionally, there were **1,001** other corporate insolvencies in Q4 2013 (not seasonally adjusted), comprising 236 receiverships, 642 administrations and 123 company voluntary arrangements.

- In total these have decreased 0.6% on the same period a year ago.

3. NATIONAL STATISTICS

INFLATION AND RETAIL ACTIVITY

CPI (Consumer Prices Index) annual inflation stood at **1.7%** in February, down from 1.9% in January.

- CPI is below the government target of 2.0%, this last happened in 2009 when the rate fell as low as 1.1%.

RPI (Retail Prices Index) annual inflation stood at **2.7%** in February. This is down from 2.8% in January.

- Note that following a re-assessment last year, the Office of National Statistics no longer designates RPI as an official “National Statistic”.

RPIJ is an improved variant of the Retail Prices Index which is calculated using formulae that meet international standards, in November 2013 it was confirmed as a National Statistic.

- RPIJ stood at **2.0%** in February, down from 2.1% in January.

There were **68,736** new car registrations in February, according to the Society for Motor Manufacturers and Traders, up 3.0% on the same period in 2013.

- The UK new car market has achieved 24 consecutive months of growth, increasing 17.4% over the period.
- February is a traditionally quieter month ahead of the March registration plate change, but the industry is optimistic for the 14-plate.

4. SERVICING DEBT

Citizens Advice Bureaux across England and Wales dealt with **0.579 million** new enquiries in the three months between July and September 2013.

- Debt was the second largest advice category (behind Benefits) with 394,562 issues. This is a 16% decrease on the same period last year. Debt issues represented 28% of all problems dealt with between July and September 2013.
- Based on *annual* figures to the end of September 2013, Citizens Advice Bureaux in England and Wales are dealing with **7,015** debt problems every *working day*.
- CAB site the loss of legal aid and falling trends in many individual debt types for the reduction in debt advice cases.

According to the Council of Mortgage Lenders (CML), **28,900** properties were taken into possession in 2013 (this is down from 33,900 in 2012 and represents 0.26% of all outstanding mortgages).

- This equates to **79** properties being repossessed every day, or one property being repossessed **every 18 minutes 11 seconds**.
- In terms of payment difficulties, **1.29%** mortgages ended 2013 with arrears equivalent to at least 2.5% of the outstanding mortgage balance.
- At the end of 2013, 28,700 mortgages (0.26% of all mortgages) were 10% or more in arrears, down from 29,200 at the end of the previous quarter and 28,900 at the end of 2012.
