The MONEY Charity

Welcome to the July 2019 edition of The Money Statistics, The Money Charity's monthly round-up of statistics about how we use money in the UK.

If you have any questions, comments, or want any information about the source of these statistics, please contact us through hello@themoneycharity.org.uk. Throughout this document, statistics that are written in **colour** have been calculated by The Money Charity. All the other statistics come from external sources such as Bank of England, ONS and UK Finance and are written in **black**. All statistics are from the latest available data at the time of writing.

You may use any of the statistics here, as long as:

- You don't make any commercial or financial gain from their use;
- You do not make substantive adjustments to the presentation of the statistics, such as amending the statistic phrasing, or for example, repurposing the statistics into a format they are not appropriate for, such as an editorial/'opinion piece' from the charity; and
- You clearly acknowledge The Money Charity as the providers of the information and point your audience towards signing up themselves for the monthly report.

If you'd like these emailed to you every month as soon as they're published, please sign up [here](#). If you would be interested in sponsoring the production of The Money Statistics, we would be very happy to hear from you. Please contact us through hello@themoneycharity.org.uk

**We update these statistics every month with the latest data.
Check our [website](#) to make sure you're reading the most recent edition.**

in the year to June 2019

26 years and 9 months

Time to pay off average credit card
debt making only the minimum
payment per month

£17.93 billion

Public sector net borrowing (excluding RBS and Bank of England)
in the three months to June 2019

1. Striking Numbers

Every Day in the UK

- The population of the UK grew by an estimated **1,083** people a day between 2017 and 2018.
- On average, a UK household spends **£4.05** a day on water, electricity and gas.
- **350** people a day were declared insolvent or bankrupt in January to March 2019. This was equivalent to one person **every 4 minutes and 7 seconds**.
- **3,567** Consumer County Court Judgements (CCJs) were issued every day in England and Wales in Q1 2019, with an average value of **£1,398**.
- Citizens Advice Bureaux in England, Wales and Northern Ireland dealt with **2,536** debt issues every day in the year to June 2019.
- **15** properties were repossessed every day in Q1 2019, or one **every 1 hour and 34 minutes**.
- The number of mortgages with arrears of over 2.5% of the remaining balance fell by **8** a day.
- The number of people unemployed fell by **318** per day in the year to May 2019.
- **1,098** people a day reported they had become redundant in March to May 2019.
- Net lending to individuals and housing associations in the UK grew by **£111 million** a day in May 2019.
- Government debt increased by **£103.0 million** a day in the year to June 2019.
- Borrowers paid **£138 million** a day in interest in May 2019.
- It costs an average of **£22.95** per day for a couple to raise a child from birth to the age of 18.
- For a lone parent family, the cost of raising a child comes to **£27.90** per day.
- **68** mortgage possession claims and **48** mortgage possession orders were made every day in January to March 2019.
- **337** landlord possession claims and **263** landlord possession orders were made every day.

2. Personal Debt in the UK

Total UK Personal Debt

People in the UK owed **£1,640 billion** at the end of May 2019. This is up from £1,592 billion at the end of May 2018, an extra **£922** per UK adult over the year.

Type of Personal Debt	Total Personal Debt £ billion	Per Household £	Per Adult £
Secured (Mortgages)	£1,422.9 billion	£51,798	£26,979
Unsecured Consumer Debt	£217.3 billion	£7,910	£4,120
Of which, Credit Card Debt	£72.9 billion	£2,653	£1,382
Grand Total (May 2019)	£1,640.2 billion	£59,708	£31,099

The average total debt per household, including mortgages, was **£59,708** and per adult was **£31,099**, around **111.3%** of average earnings. This is up from a revised **£31,034** a month earlier.

Based on May 2019 trends, the UK's total interest payments on personal debt over a 12-month period would have been **£50,425 million**, an average of **£138 million** per day. The average annual interest per household would have been **£1,836**, and per person **£956**, **3.4%** of average earnings.

According to the Office for Budget Responsibility's March 2019 forecast, household debt is forecast to reach **£2.425 trillion** in 2023-24. This would make the average household debt **£86,388** (assuming household numbers track ONS population projections.)

Consumer Credit Debt

At the end of May 2019, outstanding consumer credit lending was **£217.3 billion**, increasing by **£344 million** on the revised total for the previous month. Within the total, outstanding credit card debt came to **£72.9 billion**, an average of **£2,653** per household and **£1,382** per adult.

A credit card on the average interest rate would take **26 years and 9 months** to repay, making only the legal minimum repayments (interest plus 1% of the outstanding balance) each month. The minimum repayment in the first month would be **£67** but would reduce each month. If £67 were paid every month, the debt would be cleared in **5 years and 3 months**.

2. Personal Debt in the UK

Net Lending and Write-offs

Total net lending to individuals and housing associations by UK banks and building societies **rose by £3.44 billion** in May 2019 or **£111 million a day** over revised figures for April.

- Net mortgage lending rose by **£3.097 billion** in the month; net consumer credit lending rose by **£0.344 billion**.
- In Q1 2019 lenders wrote off **£1.260 billion** (of which **£432 million** was credit card debt, amounting to a daily write-off of **£4.8 million**.)

Based on Bank of England Data to May 2019

2. Personal Debt in the UK

Student Loans

In 2017-18, the provisional average maintenance loan awarded to full-time students in England was **£5,489 (up 16% on the previous year.)** In Wales it was **£4,774** and in Northern Ireland **£3,124**. The provisional average tuition fee loan in England was **£8,265 (up 2%.)** In Wales it was **£3,916** and in Northern Ireland **£5,105**.

In England, the average debt per borrower at the end of 2018-19 was **£22,984**. In Wales it was **£15,441**, in Northern Ireland **£16,443** and in Scotland **£10,904**.

The average debt for the latest cohorts to enter repayment was **£35,950** in England (2019), **£22,920** in Wales (2019), **£23,550** in Northern Ireland (2018) and **£13,800** in Scotland (2019).

Advice, Insolvency, and the Courts

Citizens Advice Bureaux across England, Wales and Northern Ireland answered **367,432** enquiries in June 2019.

Debt was the second largest advice category (behind benefits and tax credits) with **76,711** issues. This was up **4.8%** on the same month last year. Debt represented **21.7%** of all issues dealt with in the year to June 2019. The top three debt categories in June 2019 were Council Tax arrears, credit, store and charge cards, and unsecured personal loans. In the year to June 2019, Citizens Advice Bureaux in England, Wales and Northern Ireland dealt with **2,536** debt issues every *day*.

There were **31,527** individual insolvencies in England and Wales in Q1 2019. This is equivalent to **350** people a day or one person **every 4 minutes 7 seconds**. Individual insolvencies were down **8.1%** on the previous quarter but up **15.9%** on the same period a year ago.

Every day, on average, **46** people were made bankrupt, **78** Debt Relief Orders were granted, and **226** Individual Voluntary Arrangements were entered into.

In the 12 months ending Q1 2019, **119,652** individuals, **1 in 388 (0.26%** of the adult population of England and Wales) became insolvent.

3,567 Consumer County Court Judgements (CCJs) were issued every day in England and Wales in January to March 2019. The average value of a Consumer CCJs in January to March 2019 was **£1,398**, a fall of **6%** compared with January to March 2018.

3. Mortgages, Rent and Housing

Mortgage Debt

Outstanding mortgage lending stood at **£1.423 trillion** at the end of May 2019.

- This is up from £1.380 trillion a year earlier.

That means that the estimated average outstanding mortgage for the **10.9** million households with mortgage debt was **£130,068** in May 2019.

The average mortgage interest rate was **2.43%** at the end of May. Based on this, households with mortgages would pay an average of **£3,161** in mortgage interest over the year.

For new loans, the average mortgage interest rate was **2.09%**. Using the latest figures from UK Finance, this means new mortgages would attract an average of **£3,490** in interest over the year.

According to UK Finance, gross mortgage lending in May 2019 totalled an estimated **£21.9 billion**, down **0.4%** on May 2018.

The Financial Conduct Authority reports that **63.1%** of mortgage lending in Q1 2019 was for 75% or less of a property's value.

- **4.5%** of lending was for mortgages for over 90% of a property's value.

There were **60,150** loans approved for house purchase for first-time buyers and home movers in May 2019, according to UK Finance, **0.3%** lower than last year. The average (mean) loan approved for house purchase stood at **£166,977** for first-time buyers and **£218,855** for home movers. This was an increase for first-time buyers of **0.7%** and an increase for home movers of **2.9%** compared with May 2018.

Note: these series were revised in April 2019, with UK Finance now reporting means rather than medians as the measure of average loan size.

The mortgage as percentage of house value was on average **77.8%** for first time buyers, **68.2%** for home movers and **58.3%** for re-mortgagors in May 2019, all about the same as for the previous year.

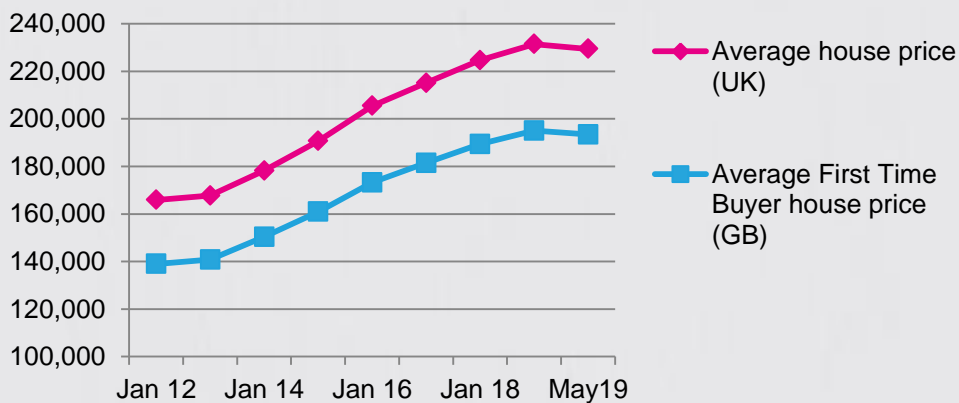

3. Mortgages, Rent and Housing

House Prices

Nationwide estimates that house prices rose by **0.1%** during June 2019 and by **0.5%** on 12 months before. Halifax reports that average house prices rose by **2.4%** in the three months to June 2019 to **£237,110**. This was a rise of **5.7%** for the year to June 2019.

Nationwide and HM Land Registry show lower prices than in July 2018. Halifax shows a significant increase over the same period. This is due to differences in the make-up of the three series. HM Land Registry is the largest and includes cash sales, but records transactions later, after registration of the sale, not at the mortgage approval stage.

House Prices

Data from ONS and HM Land Registry

First-time Buyers

HM Land Registry reports that the average house price for first-time buyers was **£193,410** in May 2019, an annual increase of **1.1%** and a monthly increase of **0.2%**.

According to UK Finance, the typical first-time buyer deposit in May 2019 was **22%** of the purchase cost (**around £47,646**) – **171% of an average salary**. Note: this number was revised upwards in April 2019, due to UK Finance changing its measure of average loan size from median to mean.

The average first-time buyer borrowed **3.49** times their income.

3. Mortgages, Rent and Housing

Renting

The median rent in England across all private rental property types for the 12 months to 31 March 2019 was **£695**, according to the Valuation Office Agency. In London it was **£1,495**.

For a single room with shared facilities, the median monthly private rent was **£390**. In London it was **£600 (54% higher.)**

For two bedrooms, the median monthly private rent was **£675**. In London it was **£1,500 (122% higher.)**

According to the Office for National Statistics, private rental prices in the UK rose by **1.3%** in the 12 months to June 2019, the same as for the 12 months to May 2019.

Over the year to June 2019, rental prices increased in Northern Ireland, Wales, Scotland and all the English regions. The East Midlands and Northern Ireland saw the biggest increases (**2.1%**.) The lowest increase was in the North East (**0.5%**.)

Figures from the Ministry of Housing, Communities and Local Government show that in 2017-18, private renter households in England spent an average of **£836** a month on rental payments. Inclusive of benefits, private renters spent an average of **33%** of their income on rental payments.

Monthly rents in the social housing sector in England were **£464** for housing association renters and **£420** for local authority renters.

In 2017-18, **34%** of households owned their home outright, while **30%** were mortgagors, **19%** rented privately and **17%** paid a social rent.

- Since 2013-14 outright owners have been the largest tenure group.
- Since the mid-1990s, the number of renters and outright owners has risen, while the number of people owning a house with a mortgage has fallen.

3. Mortgages, Rent and Housing

Arrears and Repossessions

According to the Financial Conduct Authority, at the end of Q1 2019 there were **181,964** mortgage loan accounts with arrears of more than 1.5% of the current loan balance.

- This is down **1.3%** on the previous quarter and **1.8%** down on Q1 2018.

55.2% of payments due for loans in arrears were received in Q1 2019.

UK Finance reports that **76,580 (0.85%)** of homeowner mortgages had arrears equivalent to at least 2.5% of the outstanding mortgage balance in Q1 2019, about the same as the previous quarter. Over the last year, mortgages in arrears have fallen by **8** a day.

UK Finance estimates that there were **1,380** homeowner properties taken into repossession in Q1 2019.

This equates to **15** properties being repossessed every day, or one property being repossessed **every one hour thirty-four minutes**.

Every day in Q1 2019, according to the Ministry of Justice, **68** mortgage possession claims were issued and **48** mortgage possession orders were made.

337 landlord possession claims were issued and **263** landlord possession orders were made every day.

Compared to January to March 2018, mortgage possession claims and orders rose significantly (around **40%**), while landlord possession claims and orders fell slightly.

4. Savings and Pensions

Savings

The average interest rate for an instant access savings account, not including bonus interest payments, was **0.43%** in May 2019. For a cash ISA, this was **0.80%**.

In Q1 2019, households saved an average of **4.4%** of their post-tax income, including benefits. This compares with 4.1% in Q1 2018. From 2000 to 2015, the savings rate fluctuated mostly in the 6-10% range, with a post-crash peak of 12% in Q3 2009. If someone on the average salary saved 4.4% of their income in an average instant access savings account for a year, they would receive **£4.58** in interest after tax. If they saved it in an average cash ISA, they would receive **£10.65**.

It would take **37 years** for someone on the average salary, saving the average amount per household every year in an average instant access savings account, to afford the average first-time buyer deposit. If they saved into a cash ISA at the same rate it would take **34 years**. This assumes no property price inflation in the meantime.

According to the DWP, in 2017-18 **12.6m** households (**46%** of the total) had either no savings or less than £1,500 in savings. **18.9m** households (**69%** of the total) had less than £10,000 in savings.

Pensions

According to The Pensions Regulator's Compliance Report, at least **10.11 million** employees had joined a pension scheme under auto-enrolment by the end of June 2019, making a total of **22.12 million** members of pensions schemes, but leaving **9.4 million** employees unenrolled, out of the total declared workforce of **31.55** million.

According to the Family Resources Survey, **49%** of working age adults actively participated in a pension in 2017-18, up **4%** on the previous year. This was **71%** for employees and **16%** for the self-employed.

The Annual Survey of Hours and Earnings reports that in 2018, **19.6%** of private sector employees received an employer contribution to their workplace pension of 8% or more, whereas **94.8%** of public sector employees received a contribution of 12% or more. **36.4%** of employees with a pension were in an occupational Defined Benefit scheme in 2018, according to the Office for National Statistics, while **34.0%** were in an occupational Defined Contribution scheme.

In August 2018, there were **13** million claimants of State Pension, a fall of **110,000** on August 2017. Of these, **960,000** were receiving the new State Pension (nSP) introduced in April 2016.

5. Spending and Loans

How We Spend

In the year to May 2019, consumer credit increased by **2.6%** according to the Bank of England, while outstanding levels of credit card borrowing grew by **1.8%**, significantly down on the rate of growth in early 2018 .

Meanwhile, data from LINK show that, on average, **85** cash machine transactions (including balance enquiries and rejected transactions) were made **every second** in June 2019, a fall of **14.0%** on June 2018.

- In total, cash machine transactions were worth an average of **£45** per transaction.
- These LINK transaction figures do not include transactions or withdrawals made by customers at their own banks or building societies.
- The number of ATMs (in-branch and remote) fell from **68.6** thousand at the end of 2017 to **63.2** thousand at the end of 2018 (a fall of **7.9%**.)

What We Buy

In Q1 2019, households in the UK spent **£111.27 million** a day on water, electricity and gas, or **£4.05** per household per day. On a seasonally adjusted basis, this was **the same as** in Q4 2018.

In June 2019 the average price of unleaded petrol fell by **0.4** pence per litre (ppl) to **128.4ppl**.

- This meant it cost **£64.20** to fill a 50 litre unleaded tank, **£0.20** less than last month.

The average price of diesel fell by 1.9 ppl to **132.4ppl**.

- This meant it cost **£66.20** to fill a 50 litre diesel tank, **£0.95** less than last month.
- The price difference between the two narrowed to **4.0ppl** in June, a difference of **£2.00** per 50 litre tank.

Based on AutoEurope figures, in 2017 it cost around **£2,618** a year to run a car (not including depreciation), or roughly **£7.17** a day. Driving on average 8,600 miles a year, the cost of petrol would amount to **£0.12** per mile.

Child Poverty Action Group's "The Cost of a Child in 2018" report estimates that couple families now spend **£150,753** on raising a child to their 18th birthday, **£22.95 a day**. This is an increase of **5.7%** since the study began in 2012.

- The cost for a lone parent is **£183,335**, an increase of **18.3%** since 2012.
- This comes to **£27.90 a day**.
- The percentage of basic costs covered by child benefit has risen by **1.0%** since 2012 for couples, but fallen by **2.0%** for a lone-parent family.

5. Spending and Loans

The Cost of Credit

The average interest rate on credit card lending bearing interest was **19.99%** in June 2019. This is **19.24%** above the Bank of England Base Rate of 0.75%.

UK Finance figures show that **53.3%** of credit card balances were bearing interest in April 2019.

In June 2019, the average APR for a £5,000 personal loan was **7.82%**, according to the Bank of England. For a £10,000 loan it was **3.64%**, while the average rate for an overdraft was **18.53%**.

As shown in the chart, the gap between the Bank of England base rate (**0.75%**) and credit card and overdraft rates has widened substantially since 2008.

Interest rates (% pa to June 2019)

Source: Bank of England

6. The Bigger Picture

The UK economy grew by **0.3%** in the three months to May 2019 compared with the three months from December 2018 to February 2019, according to the latest estimates from the Office of National Statistics. This was **0.2%** slower than the growth rate in Q1 2019.

The Conference Board Leading Economic Index® for the UK fell by **0.4%** in May 2019 and by **2.4%** in the six months to May, suggesting the economy will continue to slow in the months ahead.

The CPI (Consumer Prices Index) increased by **2.0%** in the year to June 2019, unchanged from the year to May 2019.

The highest rates of inflation over the 12 months to June 2019 were for communication (**4.3%**), alcohol and tobacco (**3.7%**) and education (**3.1%**). The lowest was for clothing and footwear (**-0.5%**.)

In the three months to May 2019, regular pay increased by **3.6%** on the year before, while pay including bonuses increased by **3.4%**. Average weekly pay was **£503**, or **£536** including bonuses; an annual salary of **£26,228**, or **£27,949** with bonuses. In real terms, for the year to May 2019, regular pay increased by **1.7%** and total pay by **1.4%**. Due to inflation being higher than pay growth over the last ten years, both regular (**-0.9%**) and total pay (**-5.0%**) remain below their pre-crash peaks in February 2008.

Public Sector Net Borrowing (excluding RBS and Bank of England) in the three months to June 2019 was **£17.93 billion**, an average of **£197.0 million** per day. Spending included **£6.37 billion** net investment, meaning there was current budget deficit of **£11.56 billion** over the same period.

Public sector net debt in June 2019, *excluding* RBS and Bank of England, was **£1,636.9 billion (74.8% of GDP.)** This was **£37.6 billion** more than in June 2018, an increase of **£103.0 million** per day.

According to the March 2019 Economic and Fiscal Outlook from the Office for Budget Responsibility, total public sector net debt is currently **83.3% of GDP** and is forecast to fall to **73.0% of GDP** in 2023-24.

According to the latest ONS estimate, the population of the UK grew by **1,083** people per day between mid 2017 and mid 2018.

6. The Bigger Picture

Out of a total adult population of **52.7** million, there are projected to be **31.4** million income taxpayers in 2019-20. Of these, **27.1** million will be basic rate taxpayers, **3.8** million people will fall into the 40% income tax band and **438,000** will pay the 45% rate, which replaced the 50% rate in 2013-14.

People who do not pay income tax still pay indirect taxes such as VAT, non-EU import duties, insurance premium tax and excise duties on tobacco, alcohol and fuel.

There were **6.7 million** working-age people claiming benefits in August 2018. Housing benefit was received by **4 million** people (of all ages) while **1.1 million** received Universal Credit.

The number of people classed as unemployed in March to May 2019 was **1.29 million** (**3.8%** of the workforce), **51,000** fewer than the previous quarter and down **116,000** from the previous year, **318 a day**.

- **340,000** people had been unemployed for over 12 months, down by **24,000** (**66 a day**) from a year earlier.

The unemployment rate in the UK was highest in the North East (**5.6%**) and lowest in the South West (**2.6%**.) In Wales it was **3.8%**, in Scotland **3.3%** and in Northern Ireland **3.1%**.

410,000 18-24 year olds (**10.7%**) were unemployed in March to May 2019. This was **6,000** more than in December 2018 to February 2019.

- Of these, **137,000** (**33.4%**) had been unemployed for over 6 months.
- **70,000** had been unemployed for over 12 months. This is an increase of **7,000** on December 2018 to February 2019 and a fall of **3,000** on a year earlier.

764,000 (11.0%) of 16 to 24-year-olds in the UK were not in education, employment or training (NEET) in January to March 2019, down **24,000** from the previous quarter.

275,000 people aged 50 and over were unemployed in March to May 2019, a decrease of **14,000** on December 2018 to February 2019, and down **26,000** on a year earlier.

- **38.7%** of unemployed workers aged 50 and over, a total of **107,000** people, had been out of work for over a year. **63,000** had been unemployed for more than two years.
- **1,328,000** (11.1%) people aged 65 and over were *in work*, which is an increase of **6,000** from December 2018 to February 2019, and an increase of **120,000** from the previous year.

101,000 people (**1,098 per day**) reported they had become redundant over the three months, an increase of **13,000** on December 2018 to February 2019.

the **MONEY** Charity

The Money Charity is the UK's leading financial capability charity.

We believe that being on top of your money means you are more in control of your life, your finances and your debts, reducing stress and hardship. And that being on top of your money increases your wellbeing, helps you achieve your goals and live a happier more positive life as a result.

Our vision is for everyone to be on top of their money as a part of everyday life. We empower people across the UK to build the skills, knowledge, attitudes and behaviours, to make the most of their money throughout their lives.
