# The MONEY Charity

Welcome to the November 2022 edition of The Money Statistics, The Money Charity's complete monthly round-up of statistics about how we use money in the UK.

If you have any questions, comments, or want any information about the source of these statistics, please email us at [hello@themoneycharity.org.uk](mailto:hello@themoneycharity.org.uk). Throughout this report, statistics that are written in **colour** have been calculated by The Money Charity. All the other statistics come from external sources such as Bank of England, the ONS and UK Finance and are written in **black**. All statistics are taken from the latest available at the time of writing.

You may use any of the statistics here, as long as:

- You don't make any commercial or financial gain from their use;
- You clearly acknowledge The Money Charity as the providers of the information and point your audience towards signing up themselves for the monthly report; and
- You do not make substantive adjustments to the presentation of the statistics, such as amending the statistic phrasing, or for example, repurposing the statistics into a format they are not appropriate for, such as an editorial/'opinion piece' from the charity.

If you'd like this report emailed to you every month as soon as it's published, please sign up [here](#). If you would be interested in sponsoring the production of The Money Statistics, we would be very happy to hear from you. Please contact us through [hello@themoneycharity.org.uk](mailto:hello@themoneycharity.org.uk)

**We update these statistics every month with the latest data.

# 1. Striking Numbers

## This Month's Highlights

**£65,618**

Average total debt per UK household in September 2022

**£2,245**

Average credit card debt per household in September 2022

**£3,891**

Total unsecured debt per UK adult in September 2022

**7.76%**

Change in outstanding credit card balances in year to September 2022

**0.6 pence per litre**

Decrease in the price of unleaded petrol in October 2022

**11.1%**

Inflation rate in the year to October 2022

**8.9%**

Increase in average first-time buyer house price in the year to September 2022

**22 years**

Time to save for a first-time buyer house deposit, saving at the average rate out of average UK income (at April to June 2022 rate of household saving)

# 1. Striking Numbers

## Every Day in the UK

- The population of the UK grew by an estimated [777](#) people a day between 2019 and 2020.
- On average, a UK household spends [£4.12](#) a day on water, electricity and gas.
- [313](#) people a day were declared insolvent or bankrupt in England and Wales in July to September 2022. This was equivalent to one person [every 4 minutes and 36 seconds](#).
- In Northern Ireland in September 2022, there were [5.1](#) insolvencies per day. In Scotland in the three months to June 2022 there were [22.4](#) insolvencies per day.
- Citizens Advice Bureaux in England and Wales dealt with [2,031](#) debt issues every day in the year to September 2022.
- [6.9](#) properties were repossessed every day in April to June 2022 in the UK, or one [every 3 hours and 28 minutes](#).
- The number of UK mortgages with arrears of over 2.5% of the remaining balance fell by [21.5](#) a day in the year to June 2022.
- The number of people unemployed in the UK fell by [625](#) per day in the twelve months to August 2022.
- [815](#) people a day reported they had become redundant in July to September 2022.
- Net lending to individuals and housing associations in the UK grew by [£317.9 million](#) a day in September 2022.
- Government debt increased by [£466 million](#) a day in the three months to October 2022.
- Borrowers paid [£139 million](#) a day in interest in September 2022.
- It costs an average of [£24.44](#) per day for a couple to raise a child from birth to the age of 18.
- For a lone parent family, the cost of raising a child comes to [£29.50](#) per day.
- [38.2](#) mortgage possession claims and [26.2](#) mortgage possession orders were made every day in England and Wales in April to June 2022.
- [200](#) landlord possession claims and [157.4](#) landlord possession orders were made every day.

# 1. Striking Numbers

## Arising from the pandemic and current cost of living crisis

During the pandemic, health, economic and policy impacts have interacted with each other. The UK is also currently facing a worsening cost of living crisis, with rising inflation arguably linked to pandemic-related economic disruption. Following are some striking numbers that have emerged in the last few weeks:

**44%**

The proportion of StepChange's clients who were behind on personal loans at the time of advice in September 2022, a decrease from August 2022 (StepChange).

**28%**

The percentage of families with no savings who said they would be unable to cope with an unexpected expense, while 32% said they would need to need to turn to friends and family if faced with an unexpected expense, compared with just 3% of those with sufficient savings (Resolution Foundation).

**1/4**

The proportion of students who have reported taking out new debt in response to the cost of living crisis, either by borrowing more or using additional credit. Of these, two-thirds (66%) said their student loan was not enough to live on (ONS).

**50%**

The increase in 'hand-over' enquiries received by Dog's Trust in 2022, as pet owners are faced with increases in the cost of living and are less able to afford care for their pets (Dog's Trust).

**£5.6 billion**

The amount spent using Buy Now Pay Later services in the UK between January at June 2022. In 2021, this amount wasn't reached until October (Credit Karma).

**42%**

The percentage of people using Buy Now Pay Later services who in turn are borrowing from other sources to make repayments (Citizen's Advice).

**58%**

The percentage of people living in the most deprived areas of the UK who reported spending less on food and essentials, compared with a third of those living in the least deprived areas (ONS).

## 2. Personal Debt in the UK

### Total UK Personal Debt

People in the UK owed **£1,823.6 billion** at the end of September 2022. This is up by **£71.1 billion** from £1,752.6 billion at the end of September 2021, an extra **£1,344.0** per UK adult over the year.

Type of Personal Debt	Total Personal Debt £ billion	Per Household £	Per Adult £
Secured (Mortgages)	<b>£1,617.8 billion</b>	<b>£58,213</b>	<b>£30,589</b>
Unsecured Consumer Debt	<b>£205.8 billion</b>	<b>£7,405</b>	<b>£3,891</b>
Of which, Credit Card Debt	<b>£62.4 billion</b>	<b>£2,245</b>	<b>£1,180</b>
<b>Grand Total (September 2022)</b>	<b>£1,823.6 billion</b>	<b>£65,618</b>	<b>£34,480</b>

The average total debt per household, including mortgages, was **£65,618** and per adult was **£34,480**, around **107.2%** of average earnings. This is up from the revised **£34,300** a month earlier.

Based on September 2022 numbers, the UK's total interest payments on personal debt over a 12-month period would have been **£50,844 million**, an average of **£139 million** per day. The average annual interest per household would have been **£1,829** and per person **£961**, **2.99%** of average earnings.

According to the Office for Budget Responsibility's March 2022 forecast, household debt of all types is forecast to rise from **£2,019 billion** in 2020 to **£2,447 billion** in 2025. This would make the average total household debt **£85,906** (assuming household numbers track ONS population projections.)

### Consumer Credit Debt

At the end of September 2022, outstanding consumer credit lending was **£205.8 billion**, rising by **£482 million** on the revised total for the previous month and **£7.0 billion more** than in September 2021. Within the total, outstanding credit card debt came to **£62.4 billion**, an increase of **7.76%** (**£4.5 billion**) in the year to September 2022. Credit card debt averaged **£2,245** per household and **£1,180** per adult.

A credit card on the average interest rate would take **25 years and 8 months** to repay, making only the legal minimum repayments (interest plus 1% of the outstanding balance) each month. The minimum repayment in the first month would be **£60** but would reduce each month. If £60 were paid *every* month, the debt would be cleared in **5 years and 1 month**.

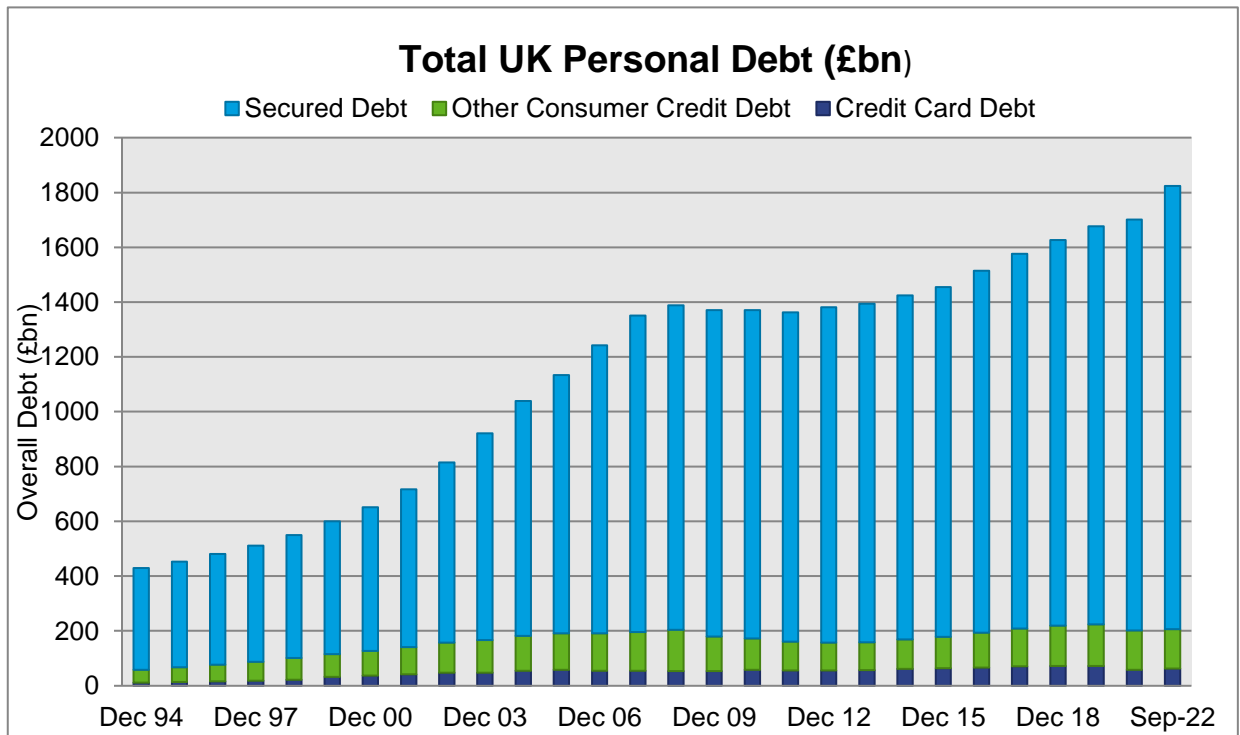

## 2. Personal Debt in the UK

### Net Lending and Write-Offs

Total net lending to individuals and housing associations by UK banks and building societies grew by **£9.5 billion** in September 2022 or **£317.9 million a day** over revised figures for August 2022.

- Net mortgage lending **rose** by **£9.1 billion** in the month, while net consumer credit lending **decreased** by **£93 million**.
- In Q2 2022 lenders wrote off **£601 million** (of which **£247 million** was credit card debt, amounting to a daily write-off of **£6.6 million**.)

**Bank of England Data to September 2022**

(The last three columns in the chart are Dec 19, Dec 20 and September 22)

## 2. Personal Debt in the UK

### Advice on Problem Debts

Citizens Advice Bureaux across England and Wales answered **414,546** enquiries in October 2022, **15.5% up** from October 2021.

Debt was the second largest advice category in October 2022 with **69,614** issues, behind Benefits and Tax Credits (**94,681**). Debt calls were **16.1%** up compared with October 2021, while calls about Benefits and Tax credits were up by **22.1%**. Debt represented **14.3%** of all issues dealt with in the year to October 2022. The top three debt categories in October 2022 were fuel debts, council tax arrears and credit, store and charge card debts. In the year to October 2022, Citizens Advice Bureaux in England and Wales dealt with **2,031** debt issues every *day*.

In Scotland in September 2022, Citizens Advice Scotland gave **81,317** pieces of advice, with debt advice being **10% of the total**. Debt advice in September 2022 was the second largest category after benefits.

In Northern Ireland in May 2022, Advice NI's Debt Action service dealt with **357** cases involving debt issues, covering **£1.6 million** of debt. The top three debts were mortgage shortfall, credit card and personal loans.

StepChange Debt Charity reports that **14,815** new clients received full debt advice in September 2022. The most common reasons for seeking debt advice were “cost of living increase”, “lack of control over finances” and “unemployment or redundancy”. **64%** of clients had credit card debt, **44%** had personal loan debt, **32%** had an overdraft and **32%** had catalogue debt. The majority of StepChange clients are female (**63%** in September 2022) and young (**58%** under the age of 40).

## 2. Personal Debt in the UK

### Individual Insolvencies

There were **31,099** individual insolvencies in England and Wales in August to October 2022, an **increase of 8.1%** from 28,796 for the same period in 2021. This was equivalent to **338** people a day or one person **every 4 minutes and 16 seconds**.

Every day on average in England and Wales, **18** people were made bankrupt, **61** Debt Relief Orders were granted and **259** Individual Voluntary Arrangements (IVAs) were entered into.

In the 12 months to September 2022, **117,722** individuals, **1 in 399 (0.25%)** of the adult population of England and Wales became insolvent.

In Northern Ireland there were **161** individual insolvencies in October 2022, a rate of **5.2** per day. This comprised **145** Individual Voluntary Arrangements, **11** Debt Relief Orders and **5** bankruptcies. Individual insolvencies for the three months to October 2022 were **up by 17.4%** on the same three months the previous year.

In Scotland there were **2,069** personal insolvencies in July to September 2022, a rate of **22.5** per day, comprising **589** bankruptcies and **1,480** protected trust deeds. Personal insolvencies for the three months to June 2022 increased by **7.7%** on the same period in the previous year.

### County Court Judgements for Debt

**2,105** Consumer County Court Judgements (CCJs) were issued every day in England and Wales in July to September 2022, a **20% decrease** on the same period on the same period in 2021. The average value was **£1,833.38**, according to Registry Trust Ltd.

In Northern Ireland, there were **11** consumer debt judgements every day in July to September 2022, with an average value of **£2,726**.

In Scotland, **40.0** consumer debt decrees were registered every day in July to September 2022, with an average value of **£3,026**.

## 3. Mortgages, Rent and Housing

### Mortgage Debt

According to the Bank of England, outstanding mortgage lending stood at **£1,617.8 billion** at the end of September 2022. This is up from £1,553.8 billion a year earlier, an increase of **£64.1 billion**.

That means that the estimated average outstanding mortgage for the **10.97 million** households with mortgage debt was **£147,479** in September 2022.

The average mortgage interest rate was **2.25%** at the end of September 2022. Based on this, households with mortgages would pay an average of **£3,318** in mortgage interest over the year.

For new loans, the average mortgage interest rate was **2.85%**. Based on this, First-Time Buyers with mortgages would pay an average of **£5,415** in mortgage interest over the year.

According to the FCA and Bank of England, gross mortgage lending in April to June 2022 was **£77.9 billion**, **12.6% lower** than the same quarter the previous year and around the level prevailing before the beginning of the pandemic.

The Financial Conduct Authority reports that **61.8%** of mortgage lending in Q2 2022 was for 75% or less of a property's value. **4.46%** of lending was for mortgages for over 90% of a property's value.

**58.8%** of mortgage lending was for three or more times the borrowers' incomes.

According to UK Finance, in December 2019 (latest publicly available data), the mortgage as percentage of house value was on average **77.0%** for first-time buyers, **67.6%** for home movers and **58.8%** for re-mortgagors, slightly higher than the previous year.

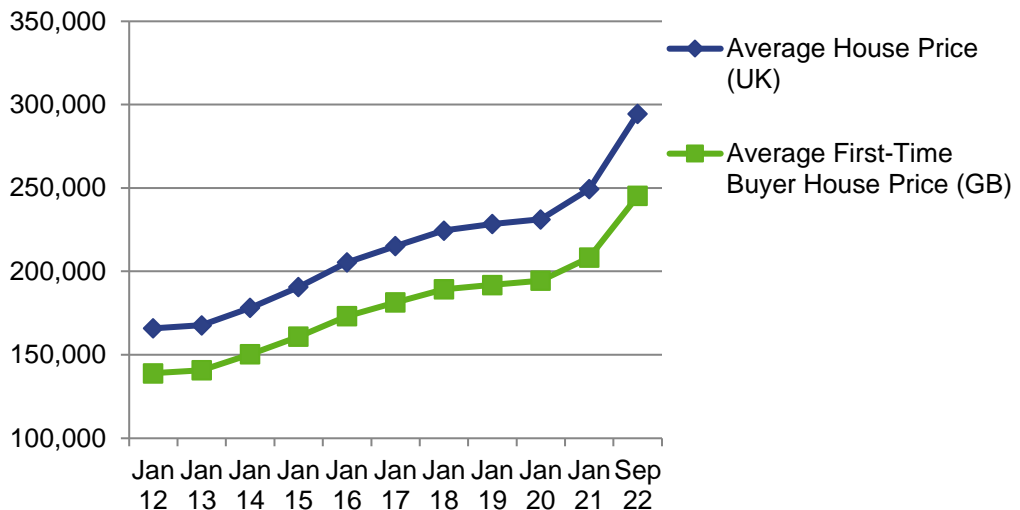

## 3. Mortgages, Rent and Housing

### House Prices

Nationwide estimates that house prices **fell by 0.9%** in October 2022 and were **7.2% higher** than 12 months before. Halifax reports that the average UK house price in September 2022 was **£292,598**, rising by **0.4%** in the three months to October 2022 and by **8.3%** in the year to October 2022.

Nationwide, Halifax and HM Land Registry all show sharply higher house prices over the last eighteen months, particularly over the summer and autumn of 2020 and again from March 2021. HM Land Registry has the largest dataset and includes cash sales, but records transactions later, after registration of the sale, not at the mortgage approval stage. The Halifax and HM Land Registry average prices tend to be similar, with Nationwide being slightly lower.

### House Prices (HM Land Registry)

### First-Time Buyers

HM Land Registry reports that the average house price for first-time buyers in Great Britain was **£245,350** in September 2022, an annual increase of **8.9%** and a monthly change of **0.1%**.

According to UK Finance, the typical first-time buyer deposit in December 2019 was **23%** of the purchase cost, which would average **£56,431** in September 2022 based on the above Land Registry first-time buyer price. This is **175.4%** of the average UK salary.

## 3. Mortgages, Rent and Housing

### House Prices in Government Office Regions, Northern Ireland, Scotland and Wales

According to HM Land Registry, average house prices in the UK increased by **9.5%** in the year to September 2022 to **£294,559**. The highest rates of increase were in Wales (**12.9%**) and the South West (**11.9%**). The lowest price increases were in London (**6.9%**) and the North East (**5.8%**). After increasing in August, the average UK price saw no change in September (**0.0%**).

The average house price was highest in London (**£544,113**) and the lowest in the North East (**£163,786**).

### Average House Prices: Nations and Regions – September 2022

Country and Government Office Region	Price	Monthly Change	Annual Change
Wales	£223,798	2.0%	12.9%
South West	£336,583	0.3%	11.9%
East Midlands	£252,982	0.0%	11.3%
Northern Ireland (Quarter 3- 2022)	£176,131	0.1%	10.7%
East of England	£362,197	0.1%	10.4%
South East	£403,515	-0.2%	10.3%
West Midlands Region	£253,864	-0.3%	10.1%
England	£314,278	0.0%	9.6%
North West	£219,005	0.6%	9.1%
Yorkshire and The Humber	£212,593	0.0%	8.5%
Scotland	£191,941	-0.9%	7.3%
London	£544,113	-0.6%	6.9%
North East	£163,768	0.3%	5.8%

Source: ONS and HM Land Registry. Ranked by Annual Change.

## 3. Mortgages, Rent and Housing

### Renting

According to the Office for National Statistics, private rental prices in the UK rose by **3.8%** in the 12 months to October 2022, up from a revised **3.7%** for the 12 months to September 2022.

Over the year to September 2022, private rental prices increased in Northern Ireland, Wales, Scotland and all the English regions. Northern Ireland (**9.1%**), the East Midlands (**4.8%**) and the North West (**4.5%**) saw the highest rates of increase. The lowest increases were in London (**3.0%**) and Wales (**3.2%**).

The median rent in England across all private rental property types for the 12 months to 31 March 2022 was **£795**, according to the Valuation Office Agency and ONS. In London it was **£1,450**.

For a single room with shared facilities, the median monthly private rent was **£425**. In London it was **£650 (52.9% higher)**.

For two bedrooms, the median monthly private rent was **£769**. In London it was **£1,475 (91.8% higher)**.

Figures from the Department for Levelling Up, Housing and Communities and show that in 2020-21, private renter households in England spent an average of **£198** per week on rental payments. Private renters in receipt of housing support spent around **41%** of their income on rental payments. The rental share of income was highest for unemployed people (**41.1%**) and low income households (**52.3%**).

Weekly rents in the social housing sector in England were **£107** for housing association renters and **£94** for local authority renters.

In 2020-2021, **34.7%** of households owned their home outright, while **30.1%** were mortgagors, **18.5%** rented privately and **16.6%** paid a social rent.

- Since 2013-14, outright owners have been the largest tenure group.
- Since the mid-1990s, the number of renters and outright owners has risen, while the number of people owning a house with a mortgage has fallen.
- In 2020-2021, **46.9%** of 25-34 year-olds were owner occupiers. **36.8%** of this age group were private renters and **16.4%** were social renters.

## 3. Mortgages, Rent and Housing

### Arrears and Repossessions

According to the Financial Conduct Authority, at the end of Q2 2022 there were **151,524** mortgage loan accounts with arrears of more than 1.5% of the current loan balance.

- This is **0.9%** less than revised numbers for the previous quarter and **7.7%** down on Q2 2021.

**50.0%** of payments due for loans in arrears were received in Q2 2022.

UK Finance reports that **74,540 (0.83%)** of homeowner mortgages had arrears equivalent to at least 2.5% of the outstanding mortgage balance in Q2 2022, **1.5%** down on the previous quarter. Over the last year, mortgages in arrears have decreased by **21.5** a day.

UK Finance estimates that there were **630** homeowner properties taken into possession in the UK in Q2 2022, up from 220 in Q2 2021.

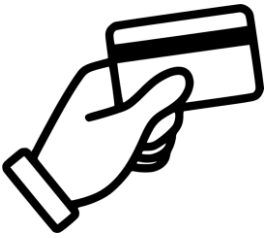

This equates to **6.9** properties being possessed every day, or one property being possessed **every three hours and 28 minutes**. This number was previously low due to the pandemic-related moratorium on forced possessions, but is now approaching pre-pandemic levels.

In England and Wales, in April to June 2022, according to the Ministry of Justice, every day **38.2** mortgage possession claims were issued and **26.2** mortgage possession orders were made.

**200** landlord possession claims were issued and **157.4** landlord possession orders were made every day.

Compared to Q4 2019 (pre-lockdown), mortgage possession claims fell by **45%** and orders by **46%**, while landlord possession claims fell by **28%** and landlord possession orders fell by **30%**. This was due to forbearance action by the Government and the FCA in response to the Covid-19 pandemic.

However, possession claims and orders increased in Q2 and Q3 2021 from the very low levels of mid-2020.

## 4. Spending and Loans

### How We Spend

In the year to September 2022, outstanding consumer credit **increased by 3.52%** according to the Bank of England, while outstanding levels of credit card borrowing increased by **7.76%**. The largest reductions occurred from August 2020 to March 2021. Since April 2021, outstanding consumer credit has fallen slightly, with variations from month to month.

After falling steeply at the beginning of the pandemic, LINK transaction volumes have begun to recover. On average, **50.14** cash machine transactions (including balance enquiries and rejected transactions) were made **every second** in October 2022, an decrease of **4.5%** on September 2021. The total value of transactions decreased by **2.8%** over the same period.

- In total, cash machine transactions were worth an average of **£51.80** per transaction.
- These LINK transaction figures do not include transactions or withdrawals made by customers at their own banks or building societies.
- The number of ATMs (in-branch and remote) fell from **54,574** at the end of 2020 to **53,398** at the end of 2021 (a fall of **2.15%**). Free-to-use ATMs fell from **41,727** to **40,942** while pay-to-use ATMs fell from **12,847** to **12,456**.

### What We Buy

In Q2 2022, households in the UK spent **£114.6 million** a day on water, electricity and gas, or **£4.12** per household per day. On a seasonally adjusted basis, this was **14% less** than the revised figure for Q2 2021.

In October 2022 the average price of unleaded petrol **decreased by 0.6ppl** to **164.7 ppl**.

- This meant it cost **£82.35** to fill a 50 litre unleaded tank, **30p less** than last month.

The average price of diesel **increased by 5.5ppl** to **187.1ppl**.

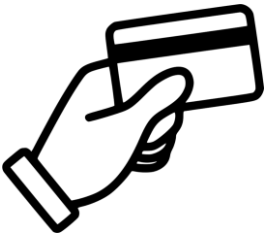

- This meant it cost **£93.55** to fill a 50 litre diesel tank, **£2.75 more** than last month.
- The price difference between the two grew to **22.4ppl**, a difference of **£11.20** per 50 litre tank.

According to Which? the annual cost for home-charging a compact electric car is around **£885** per year, or **£17.02** per week, based on 9,000 miles driving per year.

Child Poverty Action Group's "The Cost of a Child in 2021" report estimates that couple families now spend **£160,692** on raising a child to their 18<sup>th</sup> birthday, **£24.44 a day**. This is an increase of **5.2%** over the last year and **12.6%** since the study began in 2012.

- The cost for a lone parent is **£193,801**, an increase of **25%** since 2012.
- This comes to **£29.50 a day**.
- For couples in 2021, **22%** of basic costs are covered by child benefit. For lone-parent families in 2020, **16%** of basic costs are covered by child benefit.

## 4. Spending and Loans

### The Cost of Credit

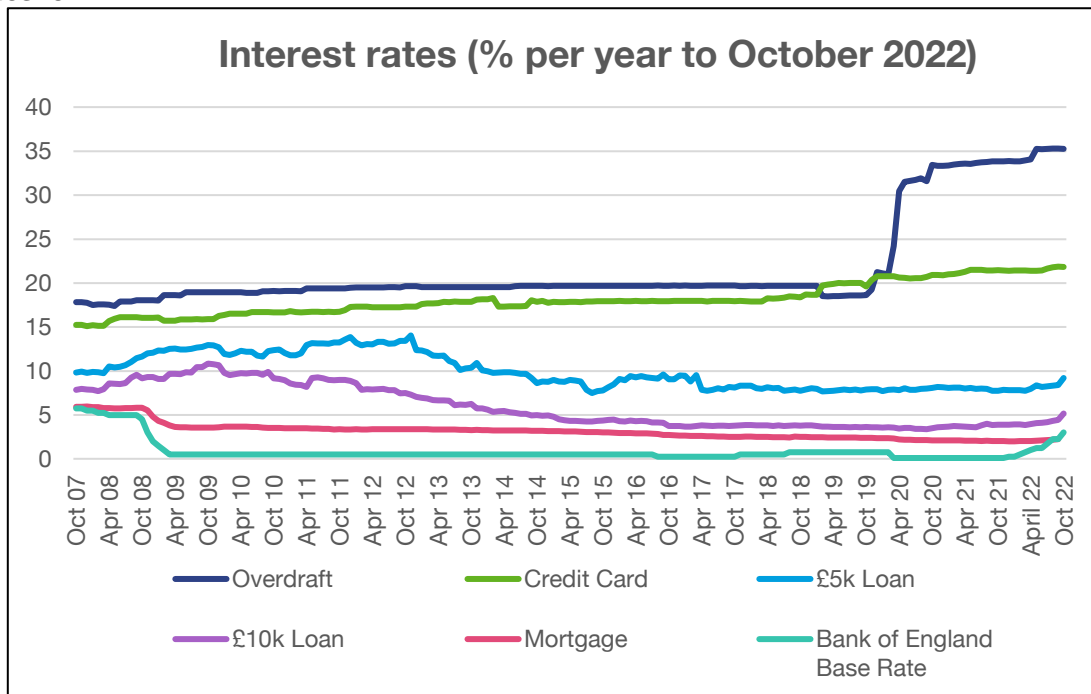

The average interest rate on credit card lending bearing interest was **21.85%** in October 2022. This was **18.85%** above the Bank of England Base Rate of **3.0%**. (The Bank rate was raised from **2.25%** to **3%** on 3 November 2022.)

UK Finance figures show that **51.2%** of credit card balances were bearing interest in August 2022.

In October 2022, the average APR for a £5,000 personal loan was **9.19%**, according to the Bank of England. For a £10,000 loan it was **5.17%**, while the average rate for an overdraft was **35.28%**.

As shown in the chart, the gap between credit card, overdraft and other interest rates has widened substantially since 2008. The dramatic increase in overdraft rates in 2020 was due to new FCA overdraft rules, which banned high fixed charges penalising accidental and short-duration overdrafts, but at the cost of a rise in the average overdraft rate.

Why overdraft and credit card rates are so high when the bank base rate remains much lower is an open question.

Source: Bank of England

## 5. Savings and Pensions

### Savings

The average interest rate for an instant access savings account was **0.64%** in September 2022. For a cash ISA, the rate was **1.35%**, up from 0.17% a year ago.

In Q2 2022, households saved an average of **7.8%** of their post-tax income, including benefits, down from **13.5%** (revised) in Q4 2020 and also the record **26.5%** (revised) in Q2 2020, which was substantially higher than the previous peaks in the late 1970s and early 1990s. From 2000 to 2015, the savings rate fluctuated mostly within the 7-10% range, with the most recent pre-Covid peak being 12.0% (revised) in Q1 2010. If someone on the average salary saved 7.8% of their income in an average instant access savings account for a year, they would receive **£12.85** in interest after tax. If they saved it in an average cash ISA, they would receive **£33.88**.

It would take **22 years** for someone on the average salary, saving the average amount per household every year in an average instant access savings account, to afford the average first-time buyer deposit. If they saved into a cash ISA at the same rate it would take **20 years**.

In 2020/2021, according to the Family Resources Survey, **35%** of UK adults had either no savings or less than £1,500 in savings. This became **48%** for households with an income of under £200 a week.

### Pensions

According to The Pensions Regulator's Compliance Report, at least **10.79 million** workers had joined a pension scheme under auto-enrolment by the end of September 2022, making a total of **23.2 million** members of pensions schemes, but leaving **10.66 million** workers unenrolled, out of the total declared workforce of **33.90 million**.

According to the Family Resources Survey, **54%** of working age adults actively participated in a pension in 2020-21, up **2%** on the previous year. Participation was **80%** for employees and **19%** for the self-employed.

According to ONS, in 2020, **34.8%** of employees with a pension were in an occupational Defined Benefit scheme, **36.5%** were in an occupational Defined Contribution scheme and **26.6%** were in group personal or stakeholder schemes. The Annual Survey of Hours and Earnings reports that in 2020, **47.2%** of members of Defined Benefit schemes received an employer contribution of **20% or more** of their income, compared with only **2.0%** of members of Defined Contribution schemes.

In November 2021, there were **12.47** million recipients of the State Pension, an increase of **92,000** on November 2020. Of these, **2.4 million** were on the new State Pension (nSP) introduced in 2016, an increase of **630,000** on November 2020.

## 6. Financial Inclusion

According to the FCA Financial Lives Survey, in the UK in 2020 there were **1.2 million** UK adults who did not have a bank account (either a current account or an alternative e-money account.) This was **2.3%** of the UK adult population. The highest unbanked rates were for the unemployed, those in a marginal or vulnerable situation and those aged 18-21.

There were **7.24 million** basic bank accounts (BBAs) on 30 June 2021, according to HM Treasury. BBAs are the no-frills bank accounts that the nine largest personal current account providers are required to offer under the Payment Accounts Regulations 2015.

According to ONS, in 2021 there were **8,810** bank and building society branches in the UK. This was a reduction of **750** branches (**-7.8%**) from the year before. According to Which? **4,735** branches have either been closed or scheduled for closure between January 2015 and December 2021, with the largest numbers of closures in the South East of England, Scotland and the North West of England.

According to the FCA Financial Lives Survey, in February 2020, **5.4 million** people relied on cash to a great or very great extent, with **2.5 million** using cash for all their payments.

In 2020, **44.4 million** UK adults (**85%** of the total) used some form of credit, according to the FCA Financial Lives Survey. This includes unregulated credit (**4%** of adults) and running credit such as credit cards that are paid off each month (**30%** of adults). Around **7.8 million** people (**15%** of total UK adults) either chose not to access credit or did not have access to credit.

According to the Bank of England, **1.92 million** adults were members of credit unions in October to December 2021, an **increase of 0.30%** over the same period in 2020. There were **395** credit unions, with loans to members to a value of **£1.75 billion**, **35.1%** of which was in Northern Ireland.

According to the FCA Financial Lives Survey, **17.8 million** UK adults (**34%** of the total) did not have home contents insurance in 2020. According to Ofcom, **1.5 million** households did not have access to the Internet in March 2021. This included **18%** of households with members aged 65+.

Recent research by The Social Market Foundation found that low-income households pay a 'poverty premium' in buying their goods and services of **£490** per year. The poverty premium is the extra amount people on low incomes pay from not being able to access the best deals.

According to the FCA Financial Lives Survey, in October 2020, **14.6 million** UK adults (**28%** of the total) said they had low confidence in managing their money, while **17.7 million** UK adults (**34%**) had poor or low levels of numeracy involving financial concepts.

## 7. Young People

### Young People in Education and Employment

According to ONS, in June to August 2022 there were **5.37 million** people aged 18 to 24. Of these, **1.93 million** were in full-time education while **3.40 million** were in employment (including those in full-time education who were also in employment.) From August 2021 to August 2022, the number of 18-24 year-olds in employment grew by **107,000**.

### Unemployment

**277,000** 18-24 year-olds (**7.5%**) were unemployed in June to August 2022. This was **114,000** fewer than the same period the previous year and **61,000** fewer than in March to May 2022.

- **88,000 (31.8%)** had been unemployed for over 6 months.
- **55,000** had been unemployed for over 12 months, **4,000 less than** from March to May 2022 and **33,000 less** than a year earlier.

**711,000 (10.4%)** of 16 to 24-year-olds in the UK were not in education, employment or training (NEET) in April to June 2022, a decrease of **80,000** over the last year.

### Minimum Wage

Minimum wage rates increased in April 2022. For under 18s the new rate is **£4.81**. The apprentice rate (for those under 19 or in the first year of their apprenticeship) is **£4.81**. For those aged 18-20, the minimum wage goes up to **£6.83**. For those aged 21-22, **£9.18** and for those aged 23+, **£9.50**. The age for receiving the National Living Wage has dropped from 25+ to 23+.

### Wages Paid by Age and Gender

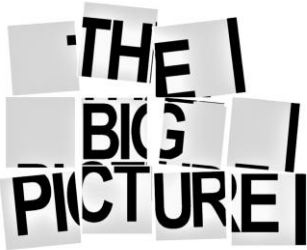

According to ONS, in the year to April 2021 the median weekly gross pay for all full-time employees was **£611**. For employees aged 16-17 it was **£220**. For those aged 18-21 it was **£374** and for those aged 22-29 it was **£521**. For those aged 16-17, male and female full-time pay was the same, but female FT pay as a percentage of male FT pay dropped to **94%** for those aged 18-29 and then gradually by age to reach **81%** for the 50-59 age group.

### Student Loans

In 2020-21, the provisional average maintenance loan awarded to full-time students in England was **£6,860 (up 1.8%** on the revised figure for the previous year.) In Wales it was **£5,110** and in Northern Ireland **£3,120**. The provisional average tuition fee loan in England was **£8,520 (down 0.5%)**. In Wales it was **£8,180 (up 16.9%)** and in Northern Ireland **£5,440**.

### Student Debt

In England, the average debt for the latest (2020/21) cohort to enter repayment was **£45,060**, an increase of **12.6%** on the previous year. In Wales it was **£27,600 (+11.4%)**, in Northern Ireland **£24,720 (+5.9%)** and in Scotland **£15,170 (+9.3%)**.

## 8. The Bigger Picture

### Economy and Inflation

The UK economy shrunk by **0.6%** in September 2022 and is now estimated to be 0.2% below its pre-pandemic level.

The CPI (Consumer Prices Index) increased by **11.1%** in the year to October 2022, **1.0%** higher than the year to September 2022. The highest rates of inflation over the 12 months to October 2022 were for housing, water, electricity, gas and other fuels (**26.6%**), food and non-alcoholic beverages (**16.2%**) and furniture, household equipment and maintenance (**10.5%**). The lowest rate was for communication (**3.2%**). According to ONS, the largest upwards contributions to the 12-month inflation rate came from rising food prices. The largest offsetting downward contributions came from a fall in the price of motor fuels.

### Pay Rates

In the three months to August 2022, regular pay increased by **5.4%** on the year before. Pay including bonuses decreased by **2.4%**. Average weekly pay was **£574**, or **£617** including bonuses; an annual salary of **£29,930**, or **£32,172** with bonuses. In real terms, for the year to August 2022, regular pay decreased by **2.8%**, while total pay fell by **2.7%**. Due to pay growth being lower than inflation for most of the last fourteen years, total real pay (**-2.7%**) was below the pre-financial crash peak in February 2008 while regular real pay fell by **0.2%** over the same period.

### Public Sector Borrowing

Public Sector Net Borrowing (excluding NatWest Group and Bank of England) in the three months to October 2022 was **£42.9 billion**, an average borrowing of **£466 million** per day. Spending included **£14.3 billion** net investment, meaning there was a current budget deficit of **£28.6 billion** over the same three months. Total net borrowing for the year to October 2022 was **£112.7 billion**, compared with **£194.3 billion** for the year to October 2021.

Public sector net debt in October 2022 (excluding NatWest and Bank of England) was **£2,150.5 billion (85.2% of GDP)**. This was **£135.4 billion** more than in October 2021, an increase of **£371 million** per day, mainly due to the economic impact of Covid-19.

According to the March 2022 Forecast from the Office for Budget Responsibility, public sector net debt will fall from **95.6%** of GDP in 2021-22 to **91.2%** of GDP in 2024-25. Interest on public debt is forecast to be equivalent to **1.3%** of GDP in 2024-25.

## 8. The Bigger Picture

### Population, Taxpayers and Benefit Recipients

According to the latest ONS estimate, the population of the UK grew by **777** people per day between mid 2019 and mid 2020.

Out of a total population aged 15+ of **55.5 million**, there are projected to be **32.2 million** income taxpayers in 2021-22. Of these, **27 million** will be basic rate taxpayers, **4.1 million** people will fall into the 40% income tax band and **440,000** will pay the 45% rate, which replaced the 50% rate in 2013-14. People who do not pay income tax still pay indirect taxes such as VAT, non-EU import duties, insurance premium tax and excise duties on tobacco, alcohol and fuel.

There were **23 million** people claiming some combination of DWP benefits in August 2021, according to DWP. In November 2021, housing benefit was received by **2.7 million** people and **5.7 million** people were receiving Universal Credit, an increase of **2.7** million from March 2020 (before the first lockdown.)

### Unemployment

The number of people classed as unemployed in July to September 2022 was **1.22 million** (**3.6%** of the workforce), **no change on** the previous quarter, **0** fewer per day and down **228,000** from the previous year, **625 fewer a day**. The unemployment rate in the UK was highest in the West Midlands (**4.7%**) and London (**4.2%**) and lowest in the South West (**2.5%**). **309,000** people had been unemployed for over 12 months in July to September 2022, down by **150,000** (**411 a day**) from a year earlier. Since the beginning of 2021, short-term (less than six months) unemployment has fallen, while longer-term unemployment has increased.

### Employment and Unemployment – Older Workers

**282,000** people aged 50 and over were unemployed in July to September 2022, a decrease of **9,000** on April to June 2022 and down **79,000** on a year earlier. **41.2%** of unemployed workers aged 50 and over, a total of **116,000** people, had been out of work for over a year. **78,000** had been unemployed for more than two years.

**1,357,000** (**11.0%**) people aged 65 and over were *in work* in July to September 2022, **111,000 less** than in April to June 2022 and a decrease of **24,000** from the previous year.

### Redundancies

**75,000** people (**815 per day**) reported they had become redundant in July to September 2022, **21,000** more than in April to June 2022 but **30,000** fewer than the year before.

# *The* **MONEY** *Charity*

**The Money Charity is the UK's Financial Capability charity.**

**We believe that being on top of your money means you are more in control of your life, your finances and your debts, reducing stress and hardship. And that being on top of your money increases your wellbeing, helps you achieve your goals and live a happier more positive life as a result.**

**Our vision is for everyone to be on top of their money as a part of everyday life. We empower people across the UK to develop the skills, knowledge, attitudes and behaviours to make the most of their money throughout their lives.**
